## PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience in React.js, JavaScript (ES6+), and responsive UI development. Currently a Frontend Developer Trainee at SolutionsLoft, building on prior internship experience developing responsive web applications with React.js, Redux Toolkit, and Firebase. Bachelor's student in Software Engineering with a strong foundation in data structures, algorithms, and object-oriented programming. Focused on writing clean, maintainable code and collaborating effectively in team environments.

## SKILLS

**Languages:** JavaScript (ES6+), C, C++

**Frontend:** React.js, Redux Toolkit, HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI, React Hooks, Context API

**Backend & CS Fundamentals:** Firebase, Object-Oriented Programming, Data Structures & Algorithms

**Tools & Collaboration:** Git, GitHub, VS Code, JIRA, Slack, Zoom, Google Meet, Microsoft Teams

## EXPERIENCE

### Frontend Developer Trainee — SolutionsLoft

Feb 2026 – Present

- Gaining hands-on experience building and strengthening frontend development skills through practical, real-world development tasks
- Building responsive, reusable UI components using React.js, JavaScript (ES6+), and Tailwind CSS
- Applying React Hooks, props, and state management practices in ongoing feature development
- Collaborating with the team on debugging, problem-solving, and continuous learning of modern frontend workflows

### Frontend Developer Intern - React.js — AverLynx

May 2025 – Jul 2025, Lahore

- Built and maintained responsive web pages using React.js, HTML, and CSS in collaboration with design teams
- Implemented state management using Redux Toolkit and Context API; applied Material UI for responsive styling
- Integrated third-party APIs to display dynamic content and connected frontend components to backend services
- Practiced version control with Git, collaborating on projects through pull requests on GitHub

## PROJECTS

### Portfolio Website — React.js, HTML5, CSS3 | [Live Site](#)

- Built a responsive personal portfolio site with reusable components and modern UI design principles

### Elderly Care Home Management System (Final Year Project) — HTML5, CSS3, PHP, MySQL

- Developed a web-based system for managing resident profiles, medical records, and schedules with secure CRUD operations and a MySQL database

### Movie Explorer — React.js, Tailwind CSS, TMDB API, MongoDB, JWT | [Live Demo](#)

- Built a full-stack movie discovery app with search, movie details, and a mood-based movie recommendation feature powered by the TMDB API
- Implemented secure authentication (signup/login) using JWT and bcrypt with MongoDB, including protected routes for a personalized favorites list
- Developed serverless API endpoints (auth, mood search) deployed on Vercel, and a responsive, theme-switchable (dark/light mode) UI with Tailwind CSS

## ACHIEVEMENTS

- Contributed to the frontend of an AI-powered health prediction platform using React.js, building interactive charts with Recharts to visualize patient health metrics, in collaboration with backend developers

## EDUCATION

### Bachelor of Science in Software Engineering (BSSE) — Virtual University of Pakistan

2022 – Present

CGPA: 2.4 / 4.0

## LANGUAGES

English — Fluent | Urdu — Advanced
